Subject: Prostitutes

Bob the guests in 223 had to move because of all the activity going on in rooms 221 and 225. Prostitution. they say guys are going in and out of the rooms all hours of the day and night. Bob we are allowing too many hookers to stay here. When our guests have to move because of all the people going in and out of rooms, then that becomes a problem and we should resolve that problem by having cobb county police remove these prostitutes. Also someone has a key and is going into our rooms. The guest told me last weekend his friend was in 221 and we moved him to another room, and then a white male went into the room. Also a white female was seen going into one of our rooms. Bob we are allowing too many prostitutes to stay here and i believe it is becoming a problem.
